

National Eating Disorders Association

603 Stewart Street, Suite 803 ~ Seattle, WA 98101

NEDA mission is to support those affected by eating disorders and be a catalyst for prevention, cures and access to quality care.

NEDA/AED Research Grants Program

Grant Application Cover Sheet

Applicant Name: _____

Grant Name: _____

1. Are you a junior investigator within seven years of completion of your training (including Ph.D., end of residency training, or other terminal degree)? Post-doctoral fellows and post-residency research fellows are eligible. **Yes** **No**
(To be eligible answer must be yes)

2. Are you the principal investigator of this study? **Yes** **No**

3. Are you a principal investigator on any other large, national grants? **Yes** **No**
(To be eligible answer must be no)

4. Do you have major external funding (e.g., RO1, RO3, or K Award in the US)? **Yes** **No**
(To be eligible answer must be no)

5. Will the study provide preliminary data for a larger grant? **Yes** **No**
(To be eligible answer must be yes)

Preliminary Title: _____

Funding Agency: _____

Tentative Submission Date: _____

6. Do you have a mentor or other senior investigator to help you with this project? **Yes** **No**
(This is not required but desirable for junior investigators.)

If Yes, Name: _____

If Yes, Affiliation: _____

7. Is this part of an ongoing project? **Yes** **No**
If yes, please indicate how it is unique and separate. (This project must be a unique and separate project if part of an ongoing project for you to be eligible.)

If yes, can this study be supported by the funds for the ongoing project of which it is a part?
(For you to be eligible, funds must not be available from the primary project.)

Before submitting please check to make sure that the proposal includes the following:

- Specific aims and hypotheses (**250 words**)
- Background and significance of the project, including literature review (**250 words**)
- Description of preliminary studies (if any), proposed methodology and design, and data analysis (**750 words**)
- References (**limit 20**)
- Budget (**1 page itemized**)
- Description of the research environment and research colleagues that will be involved (**limit 1 page**)
- A list of all current or proposed grants which the principal investigator is currently receiving, are under review, or are in submission
- A statement outlining how the data that will be obtained will be used to inform a subsequent grant submission. Please include a description of the mechanism and the agency to which you will apply.
- A curriculum vitae for the proposed principal investigator
